

Front-End Test: 27 January 2020

The Brief:

Please use attached PDF/PSD, typography and some of the key assets (kjd-assets folder) you need to complete this test. We have left this brief open to see how you would interpret the layout. Please read below guidelines to produce 1 page layout and feel free to ask questions.

- Please do not spend more than 5 days on development as we would like to see what you can achieve with the time constraint.
- Approach the build with mobile 1st (mobile & desktop, exclude tablet size)
- Create a semantic HTML and SASS/SCSS structure.
- Use your own creative approach to animate one button or chosen HTML element.
- Add simple JS functionality to open/close menu.

Good Luck
